## More Than 1,000 Persons At Cooking School On Tuesday; \$389 Prize Thursday Night

More than 1,000 persons attended the opening of the Gettysburg series of The Gettysburg Times Cooking School Tuesday evening at 7:30 o'clock in the Hotel Gettysburg Annex marking the 27th annual session of the school and the fourth appearance of Miss Madeline D. Linehan, home economist, in Gettysburg.

Doors will reopen at 6:30 o'clock this evening for the second session to begin at 7:30 o'clock. The final session will be held Thursday evening when a \$389.95 Frigidaire electric range will be given away along with many other valuable prizes. A fashion show will be presented Thursday evening. Each night 25 baskets of groceries each worth \$15 will be awarded. Twenty-seven merchants are cooperating with The Times in presenting the school.

Miss Linehan of Ipswich, Mass., was introduced by C. William Harbaugh, member of the advertising staff of The Times, who said, "Our instructor tonight has been editorially recognized by the TV guide. After she has completed her lectures here Miss Linehan will return to New England for another television series."

**Presents Home Economist**  
Miss Linehan introduced Mrs. M. Elizabeth Wible, York, home economist for Western Division of the Metropolitan Edison Company, who described the electric appliances on the stage.

"If we are homemakers," she said, "we like to get our housework done and still be free as possible to attend our bridge luncheon and church socials. Modern electric ranges and refrigerators can help us achieve this goal." As Mrs. Wible spoke Miss Linehan opened the doors of the various appliances for the audience.

Culinary highlight of the evening was the baked stuffed lobster lesson during which Miss Linehan killed a wriggling green lobster which had been packed in seaweed and shipped to Gettysburg for the cooking school. She placed the lobster into boiling water for about ten minutes. When it was removed it had the traditional "red as a lobster" look.

**Lobster Is Stuffed**  
The speaker drained and cooled the lobster before she filled it with the following stuffing: two cups fine cracker crumbs, three-fourths cup melted butter, one half tablespoon salt, one teaspoon sage or poultry seasoning, one-fourth teaspoon pepper, few grains nutmeg and one-fourth cup lemon juice.

She showed the audience how to open the lobster, for stuffing, with a heavy pointed knife. She placed the stuffed lobsters on a shallow dripping dish and baked until the stuffing turned golden brown in a 400-degree oven for about 15 minutes. "This should be served immediately with hot drawn butter and a wedge of fresh lemon."

Miss Linehan's chicken dumpling recipe was a favorite with the audience. She broke an egg into a measuring cup, filled it to three-fourths of a cup with rich chicken broth and mixed it in a chicken fryer with diced chicken. She added two cups cream of chicken soup and one cup of water. When the soup, water and chicken were well blended she dropped the dumpling dough in by the spoonful, which she cooked, uncovered, for ten minutes. Then the dish was covered and cooked for ten more minutes.

They offered a resolution in Congress to establish a National Cemetery, of 100 to 350 acres, at Indiantown Gap Military Reservation. The resolution said, "The national cemeteries at Gettysburg and Philadelphia have been closed to additional interments due to reported exhaustion of burial space."

## RULE CHANGES ANNOUNCED BY COUNTY ACASC

The Adams County Agricultural Stabilization and Conservation committee today announced that farmers may obtain government assistance in carrying out conservation practices regardless of whether they have overplanted their wheat or corn acreage allotments.

While noting that marketing quotas on wheat are still in effect, the county office said that a recent decision of congress permits the granting of funds for cost-sharing under the Agricultural Conservation Program whether or not a farmer may have exceeded any of his acreage allotments. Previously those who had overplanted could not receive any aid in conservation practices.

Roy A. Weaver, chairman of the committee, said: "We urge the farmer to think carefully of his plans to carry out conservation practices on his farm this year. Those who are interested in cost-sharing under the ACP are asked to come to the county office at 146 York St., and enroll their farm and indicate the practices they wish to perform."

In connection with the marketing of wheat the county ASC committee has called a meeting of warehousemen, elevator operators, feeders and processors at its office on York St. for June 7 at 7:30 p. m. At a similar meeting last year approximately 30 were present.

At the June 7 meeting the records to be kept by the purchasers of wheat will be outlined as well as all other forms which he must require. There is a penalty of \$1.13 per bushel on all wheat in excess of allotments. The purchaser of such wheat is liable for the penalty if it has not been previously been paid by the producer. The purchaser may buy the wheat however and deduct the amount of the penalty from the price paid for the wheat, and then must turn that amount over to the secretary of the county ASC. Full particulars on the forms that are required of producer and non-producer seller and purchaser will be explained at the meeting.

## TEACHERS' PAY BOOST BILL IS CALLED 'FAIREST'

The pending bill at Harrisburg which would increase starting salaries and increments for teachers was described as the "fairest ever" in a panel discussion of current school legislation Tuesday evening at a PSEA sponsored meeting in the Gettysburg High School cafeteria.

About 150 persons mostly school teachers, attended the meeting with H. Edgar Riegle, county superintendent of schools, serving as panel moderator.

Members of the panel were State Senator Donald P. McPherson, Assemblyman Francis Worley; Leslie V. Stock, Upper Adams joint district supervising principal; Charles W. Haas, New Oxford elementary principal; Dr. Lloyd C. Keefe, Gettysburg school superintendent; Mrs. Forrest Craver, Gettysburg, and Mrs. Donald Sheely, former local PTA president.

**Express Tax Opinions**  
The teacher pay raise bill was lauded as bringing a "needed increase" in the minimum starting salary and because it attempts to reward with salary advantages teachers with the most preparation and years of experience. The group said they understood the governor's fiscal plans are including provisions for the teacher pay raise but it was pointed out that unless an appropriation bill is passed to provide the funds, the raises cannot be given.

The bill would raise the minimum salary from \$2,400 to \$3,000 and raise the maximum for holders of bachelor's degrees to \$5,000 instead of \$4,500. The same measure, described as the PSEA's salary bill, would give \$600 increments next year instead of the scheduled \$200.

The question of whether growing school costs should be born chiefly by the state or local tax sources was discussed briefly in (Continued On Page 10)

## LAWYER TALKS AT MEMORIAL SERVICES HERE

"All great civilizations have begun on promises of faith, hope and humanity, and they have failed when they lost those principles," Attorney John A. MacPhail told 75 persons Tuesday evening at the annual Memorial Services held by the local Odd Fellows at their hall on Chambersburg St.

Israel, the Roman Empire and France were used as examples by MacPhail to demonstrate how they had become great by their ideals and then, having lost them, fell as great powers. "Our nation has grown great on faith in God, hope in His promise and a regard for all men. In nations, as in people, love of others and regard for others as brothers under God is a requirement lest the nation, fall into the sin of pride."

"Those nations that have pride replace their original ideals have fallen. We too have grown great as a nation. But there are certain signs today of a disregard for our ideals, of a disrespect for other men and other nations, tendencies that indicate that we as a nation are becoming proud and perhaps arrogant. If pride overcomes us, we are (Continued On Page 10)"

Those who have been inadvertently missed in the solicitation are asked to send their contributions direct to the Annie M. Warner Hospital, Gettysburg, Pa.

## Robert G. Eppleman Is Presented Franklin Moore Award At Dinner Here Tuesday Night

Dr. Walter C. Langsam (second from right), president of Gettysburg College, presents check for \$260 to Robert G. Eppleman, as the 1955 winner of the Franklin Moore award at the college. Moore, in whose honor the award is made each year, is at the right and Henry M. Scharf, manager of the Hotel Gettysburg and host at the dinner Tuesday evening where the award was made, is at the left.

Gettysburg College's top honor, the Franklin Moore Award, was presented to Robert G. Eppleman, Gloucester City, N. J., president of the Senior class, at the annual dinner tendered the winner at the Hotel Gettysburg Tuesday evening.

Dr. Walter C. Langsam, president of the college, presented Eppleman with a check for \$260 representing the income on the \$6,500 fund created by 80 nationally known hotelmen throughout the country and business and professional leaders of the Harrisburg area in 1951, in honor of Franklin Moore, president and managing director of the Penn-Harris Hotel, Harrisburg, when Gettysburg College conferred upon him an honorary doctor of science degree.

In congratulating Eppleman upon his outstanding career as an undergraduate in which he won numerous honors in athletics, scholarship and leadership, Dr. Langsam said:

**Thanks College**  
"The pattern you followed during your college years resulted in your selection, in competition, for the Franklin Moore award which was created by a group of business and professional men who sought to honor a man's achievement not alone as a business man but as a patriotic citizen and a Christian gentleman."

In his response Eppleman said he had not considered himself a possible winner of the Moore Award and that he would do his best to fulfill the standards set forth in the honor accorded the Harrisburg hotelman. He expressed his appreciation of Gettysburg College saying, "It will be impossible ever to repay the college for what it has done for me."

Franklin Moore said the honors accorded him by Gettysburg College and by creators of the award have always been amazing to him, saying, "Whatever I have achieved seems to fall far short of the representations that have been made of me."

**Appreciate U. S. System**  
"I believe it to be true, however, that strive as we do none of us fully achieve our potentialities."

Moore told the award winner he hoped he would devote time throughout his life to study and appreciate the American system of opportunity and the freedom that makes this country different than any other. "The freedom of religion, the right to own property and to use such property as one wishes, are the basic phases of the American system and are the fundamental reasons for America's greatness and America's position as a leader. No other country has it and the generations coming along must make it their responsibility that these basic rights are not replaced by a system that in principle comes close to resembling the common storehouse which was the notorious failure of the days of the early colonists."

"The American system demands all the elements of good citizenship, of self-reliance, initiative and unregimented freedom to achieve and by achievement doing for others. Combined, these become the essence of Christianity. Good citizenship and Christian standards go hand in hand."

Dean Wilbur E. Tilberg traced the pattern that Eppleman followed through his high school and college days starting with athletic achievement and developing into high scholastic attainment and a broad field of service to his school and associates.

## FILES DAMAGE ACTION ANSWER

Henry U. Wagner, Table Rock, filed an answer and counter-claim to this action in trespass which Elmer R. Gastley, R. 5, placed against him. The answer, filed Tuesday with the prothonotary, cites a different version of the auto accident in which the two were involved and asks \$375 in damages.

Gastley's original complaint, filed May 4, states that on April 30, 1954, Gastley was driving north on Route 34, in Butler Twp. Wagner, he states, driving south on that route, made a left turn across the highway and entered the driveway of Jack R. Payne. The two vehicles struck, and Gastley maintains that the accident was Wagner's fault, and asks \$46,977.

Wagner's answer states that he had driven approximately ten feet into the Payne driveway, stopped his car, and turned off the motor when Gastley attempted to stop but lost control of his pickup truck, which went off the highway, hit the Payne lawn, turned over, and landed on the hood of the "parked car."

Wagner states that Gastley was responsible for the mishap by driving at excessive speed, not keeping an adequate lookout for oncoming vehicles, and not being able to stop within an assured clear distance ahead. He asks a total of \$375 damages, \$275 for car repair bills and \$100 for the estimated depreciation of its value.

colleague, paid tribute to the honor guest and placed emphasis on the motives of the 80 contributors of the award in seeking to "evaluate the results of plus efforts and the giving wholeheartedly to the institution with which one is established."

Richard E. Debus, business manager of the college, in his accolade to Eppleman described his service to the college as a dormitory counselor and in many other ways in which the college depends on leadership traits of members of the student body.

Harold Cooper, president of the student body, extended the congratulations of the group he represents and expanded on Eppleman's statement of the debt owed to the college by the students.

### Scharf Lauds Moore

Henry M. Scharf, manager of the Hotel Gettysburg, who tendered the dinner, spoke for James A. Johnston, president and managing director of the Harrisburg Hotel, Harrisburg, who is the representative of the contributors.

"The award is intended to reflect the qualities of the man in whose honor it was created. He is the product of the American system of free enterprise under which by his own efforts he rose from humble beginnings to the very top of his profession and in the process has been a big contributor to others in and out of his profession and in this country and internationally. His career, his unselfish willingness to serve his country and preserve what it stands for, and to be helpful to mankind in general reflect qualities worth recording and worthy of emulation."

"That was the intention of the creators of the award which is now in its fifth year and they are pleased with the manner in which it is being managed at Gettysburg College."

Dr. Henry W. A. Hanson, president emeritus of the college, was unable to attend the dinner due to an emergency trip to North Carolina with Mrs. Hanson to see the latter's sister who suffered a fractured hip in a fall a few days ago.

Letters reporting the progress of previous award winners were read at the dinner and a telegram was sent to Miss Jean Eloop, a graduate student at Eastman School of Music, Rochester, N. Y., who will compete for a solo engagement with the Rochester Symphony orchestra.

### "I RELY ON YOU"

For smiles when smiles are hard to find . . . for hope when hope is gone . . . I look to you for these, my dear . . . as time goes rolling on . . . for little things that mean so much . . . like tenderness and bliss . . . I turn to you and find them in . . . the magic of your kiss . . . for faith and love when all the world . . . seems full of fear and hate . . . I seek your gentle words that hold . . . the answer to my fate . . . for strength when strength is waning . . . I hold your helpful hand . . . because however great my woe . . . I know you'll understand . . . for brilliance without an ending . . . however dark the day . . . I find the lovelight in your eyes . . . guides me along the way . . . for peace when it is seldom found true . . . I'm certain you . . . and all that's good and impart all these . . . so I rely on you.

## Today's Talk

**THINGS HARD TO GET**  
Research — on the look for something that you want very much — perhaps a rare book, or work of art, or some curio that has an association, the more difficult such a thing to find, the more it is sure to be appreciated when finally discovered.

I have been a modest collector of books and pamphlets for many years, but only of such writers as appealed to my love or fancy. For years I have searched for some of these things and finally I have found many of them. Usually the cost has been small. Things we love for their inner wealth go far beyond any other value.

Laford Hearn has been a favorite writer of mine for some thirty years. Some of the items I have collected, however, have been small discoveries. Many rare pamphlets that once cost but a few cents, others are many of his books that he treasured and signed. There is one item that Eugene Field (also a modest rare book collector) told about in one of his books. He said that Hearn once wrote a small pamphlet on perfume, or perhaps it was odors. At any rate I have never heard of anyone who ever saw or read it! That would be one of those rare discoveries — if discoverable at all!

We appreciate the things that have taken us a long time to find or that people have said were impossible to find. Several years ago a rare pamphlet by Edgar Allan Poe was found in an attic by two ladies who lived alone and who had read of its rarity. I believe it brought in excess of ten thousand dollars! I understand there are but half a dozen of these Poe items that have been discovered.

It took me years to locate that paper-back copy of Stephen Crane's first book "Maggie, a Girl of the Streets." Crane borrowed enough money from his brother to print it and put it on sale for 25 cents — but no one wanted it. Those who did treasure it today. The copy I had to sacrifice to buy I presented with other Crane items to the Dartmouth College library. My copy of "Maggie" had never been read and the pages were uncut!

Tomorrow Mr. Adams will talk on the subject: "Answers" Protected, 1955, George Matthews Adams Service

**OPEN-FACED LETTERS**  
I don't always know what a letter contains. Since the envelope comes to me sealed.

The name of a friend who a missive has penned Is not always plainly revealed. A postage stamp red for which two cents were paid Means an ad the large envelope fills. But I know without fail as I glance through the mail Those open-faced letters are bills.

The hand-written name and address make it clear That by stranger or friend it was sent. And it's certainly true, for that small stamp of blue In the corner three pennies were spent. The mail that was typed by a modern machine Is certainly laden with chills. And I haven't a doubt as I'm sorting them out Those open-faced letters are bills.

I look with dismay through those windows of glass. Since a shock I have frequently had. And I'm struck with the thought of "what now has been thought By my daughters and charged to their dad?" Too frightened am I on the statements to stare. Though I'm glad to submit to their wills. I know, there and then, they've been shopping again. Those open-faced letters are bills.

The arrangements which distinguish the band are fashioned by Camarata, a composer and arranger who has worked with Charlie Barnet, Joe Venuti, Tommy Dorsey and Bing Crosby. Vocals will be provided by pretty Rita Hayes.

Two Central Pennsylvania area brass bands will play free concerts in the park bandshell next Sunday and Monday. The Rebersburg Band will be heard on Sunday, followed by the New Cumberland American Legion Band on Monday. Concerts are scheduled from 2 until 4 and 7 until 9 o'clock.

## Billy Pierce And Curt Simmons Look Good Again; Senators Clip Yanks' Win Streak; Orioles Win

**By ED WILKS**  
The Associated Press

Billy Pierce and Curt Simmons, a pair of southpaws who have known better days, look as if they may be ready to set up shop again. If so, you can bet Managers Marty Marion and Mayo Smith will be throwing a lot of business their way.

Billy the Kid has been one of the missing links in Marion's plan to bring the Chicago White Sox an American League pennant. The Sox have been able to hang in there, just a stride or two behind the leaders, without Pierce, but if his arm troubles are over, Chicago could really get in on the scrap.

Pierce gave an indication of his importance last night. His three-hitter beat Cleveland 4-1. Chicago home runs ruined rookie Herb Score and pushed the Sox to within half a game of the second-place Indians.

**Curt Banned Since '33**

Billy fanned seven while notching his second complete game, flashing some of the stuff that made him the AL's strikeout king in 1933—the year he was 18-12. Simmons looked his best since 1933 as he went 7-13 in his first game before fanning last night. And with some nice help from Jack Meyer, the Philadelphia Phillies were able to snap a six-game winning streak by the New York Giants 6-2.

Simmons, who helped the Phils to their 1950 flag but who fell off after losing part of a toe in a lawn mower accident two summers ago, fanned five and spaced five hits. It was his first victory in five appearances after shoulder trouble in spring training.

**Senators Beat Yanks**

In the American League, Chuck Stobbs and the Washington Senators smashed first-place New York's seven-game string by beating the Yankees 3-2. Baltimore ended its five-game losing slump 6-1 against Boston while Detroit beat Kansas City 9-6.

In the National, Pittsburgh buried its 11-game losing string by humiliating the first-place Brooklyn Dodgers 15-1.

Rain postponed St. Louis at Chicago and Cincinnati at Milwaukee. The White Sox caught up with Score in the seventh, breaking up a no-hit bid with three singles and a run. Then after Ralph Kiner homered to tie it, Chico Carrasquel and Bob Nieman homered to score three runs in the eighth. Score fanned 11.

**Meyer Saved Simmons**

At Philadelphia, Meyer saved Simmons by getting Dusty Rhodes and Willie Mays on popups with the bases loaded in the eighth. Glen Gorbous sent Jim Hearn to his third defeat against six successes with two doubles and a pair of singles that scored two tie-breaking runs.

The Pirates hammered loser Johnny Podres and five Brooklyn relievers for 19 hits. Bob Friend shut out the Dodgers in 4-1-3 innings of relief for the decision.

The Yanks had three doubles among their five hits off Stobbs, who won his first decision, but paired them only in the eighth. That's when Mickey Mantle got his second two-bagger to tie the score at 2-2. Mickey Vernon's long sacrifice fly brought Stobbs home with the winning run in the ninth. The Yanks held on to their one-game lead.

**Tigers Lose Kuenn**

At Kansas City, the Tigers lost Harvey Kuenn for 10 days when the leading AL batsman pulled a muscle while running out a first-inning hit. Three runs in the eighth won it for Detroit after Al Kaline and Gus Zernial matched three-run homers in the sixth. Forty players got into the game—including 11 pitchers, seven for Detroit.

Jim McDonald and Ray Moore got the job done for the Orioles with the help of Cal Abrams' 3-for-4 and Gene Woodling's two runs batted in. McDonald, who came to Baltimore with Woodling in the Bob Turley deal, won his first as a starter with Moore blanking the Sox over the last 2-1-3 innings.

## DRESSEN PLANS SOME CHANGES FOR SENATORS

NEW YORK (P)—Manager Charlie Dressen, admittedly disappointed over the fifth-place position of his Washington Senators, today promised some changes on the club "within the next 10 days."

He said he has been dicker with a number of clubs for a short stop. He refused to mention names but indicated he'd be willing to give up a top-flight pitcher for the player he wanted.

Calvin Griffith, vice president of the Senators, and General Manager George Weiss of the Yankees held a long conference yesterday. Out of the conference, it was learned, came a Yankee offer to give up an unnamed pitcher and infielder for either Bob Porterfield or Maury McDermott. Porterfield, a former Yankee, has a 5-4 record; McDermott, a southpaw, 2-4.

"Every club in the American League wants to make a trade with us," Dressen said. "They all want our best players but so far they haven't offered us the players we'd like in return."

"We're after more hitting. Our pitching has been good but our big hitters, with the exception of Mickey Vernon, have been disappointing. Our prime need is an infielder, preferably a shortstop who can hit a little bit. We're prepared to give up somebody of equal value for such a man."

## SANDY SADDLER LOSES TO LOPES

SACRAMENTO, Calif. (P)—Lightweight Joey Lopes likes the featherweight champions. The 24-year-old West Sacramento already has licked two of them.

Lopes had it all his own way last night as he pounded out a unanimous 10-round non-title decision over featherweight king Sandy Saddler. Time after time, the young Portuguese-American beat the champ to the punch, landing cleaner and more effective blows.

Lopes, the 10th ranking lightweight, weighed 133½; Saddler, 130½.

The local favorite had Saddler in trouble in the second and ninth rounds. But the experienced champion managed to tie up Lopes after being hit with looping rights and a stinging left jab.

Lopes, who lost a Madison Square Garden fight last March to Carmelo Costa, scored a second round technical knockout here in the same Memorial Auditorium last February over Percy Bassett. Bassett held the featherweight crown while Saddler was in the Army.

## GREEN MEETS MIMS TONIGHT

ST. LOUIS (P)—Charley Green, the Pacific Coast's latest gift to middleweight boxing, has been doing a lot of talking about what he is going to do to Holly Mims but tonight he has to do it or else.

Green and Mims clash in a scheduled 10-round televised fight (CBS) which has engendered anything but enthusiasm among the local boxing crowd.

Mims, from Washington, D.C., is ranked fourth among the middleweights and Green, from Los Angeles, is unranked.

In his 56-fight career, Mims has won 39 fights, lost 12 and broke even in five. He has nine knockouts to his credit.

Green has 54 fights behind him. He has won 42 of them and scored 27 knockouts. All his fights have been on the West Coast.

**YESTERDAY'S STARS**  
By THE ASSOCIATED PRESS

Pitching—Billy Pierce, White Sox, held Cleveland to three hits as Ralph Kiner hit a home run to deprive him of a shutout in the White Sox 4-1 defeat of the Indians.

Batting—Glen Gorbous, Phillies, collected two doubles and two singles in five trips to the plate as the Phillies broke the New York Giant six-game winning streak, 6-2.

Joe Cronin, general manager of the Red Sox, was field manager of the club from 1935 to 1947.

**Pirates Set Record At 15-1**

PITTSBURGH (P)—"It's nice to be leading in something," Manager Fred Haney of the Pittsburgh Pirates said when he learned the 15 runs scored by his team last night over the league-leading Brooklyn Dodgers was the highest National League run output this year.

"No, I didn't know that 15-1 victory was tops for the season," Haney chuckled. "It's about time we got some breaks. I still insist we have a better team than last year."

Three National League teams have scored 14 runs this year while the highest major league production came in the Chicago White Sox's 29-6 victory over Kansas City. In the NL, the Dodgers beat the Phillies 14-4, the Chicago Cubs beat the Cards 14-4 and the Cards swamped the Cubs 14-1.

The Pirates, whose previous longest losing streak this year was eight at the start of the season, were in grave danger of tying a modern club record last night. Had they lost, they would have equaled the 12-game consecutive losing mark set by the 1939 team.

"I had to happen sometime," said Haney. "We're playing the Dodgers again tonight and tomorrow. I'm keeping my fingers crossed."

Plans were completed Tuesday evening at the American Legion Home by officials of the South Penn and Pen-Mar Baseball Leagues to stage a benefit game for the Warner Hospital building fund.

The game will be played Wednesday evening, June 15, at 8:30 o'clock under the lights at Memorial Field, Littlestown. Friday, June 17, was set as the rain date.

All-star teams representing the two leagues will meet in the contest. Managers of both leagues will each select two teams from his league and a tabulation will be made and announced at a meeting of the South Penn League June 2 at the Legion Home.

The Eagles upset last year's play-off title-holders, the Texas Lunch, 6-4 Tuesday evening as the 1955 season of the Softball League got underway. The game was snappily played and required but one hour and 20 minutes.

The Lunchmen tallied in the top of the first when Timbers took first on a fielder's choice, stole second and raced home when Dave Graybill also reached first via a fielder's choice.

In the same frame the Eagles came up with five runs to pull in front 5-1. Buddy Redding walked, Gilbert took first on an infield miscue and Bob Redding singled, loading the bases. Tom McLaughlin hit into a fielder's choice allowing Buddy Redding to score. Jim Every then banged out a single to produce two more runs and placing runners on second and third.

When Rich Little blasted a grounder through the infield for a Texas Lunch error, the Eagles tallied their last pair of runs of the inning.

Both teams went scoreless in the second but each came up with a run in the third. The Lunchmen scored when Timbers got to second by way of two Eagles' miscues. A single by Graybill tallied Timbers. The Eagles added their sixth run when Small got on first via a fielder's choice and came all the way home on an infield error that put Buddy Redding on first.

The Texas Lunch tallied their final two runs in the fifth on singles by Timbers and Fissel and a double by George Fair.

Gilbert, Bob Redding, Every and Shindlerdecker led the hitting for the winners, as they each collected a pair of safeties, with Every driving in two runs. Fissel led the Lunchmen's attack as he also collected the same number of hits. Fair had the only extra base hit, a double to center.

## SENIOR CHORUS HAS BUSY YEAR

The Senior Chorus of York Springs High School has had and is still having a very busy 1954-1955 season. The Chorus sang on the high school assembly programs early in the fall and closed the year of 1954 with a Christmas program.

A special Christmas program of sacred music was given in the Methodist Church at which Charlotte Taylor, Lucille Bubb, Mary Klinger and Judy Mulky were soloists. Small ensembles sang at banquets and school plays.

Dean Hoffman, baritone, was selected from the Senior Chorus to attend the three-day District Chorus Festival held at New Bloomfield, Pa. Two evening concerts were the climax of this festival.

For the Easter season, the Senior Chorus gave a sacred program in the Lutheran Church, April 7. Soloists were Dean Hoffman, Lucille Bubb, Judy Weigle, Mary Klinger and Judy Mulky. This concert was broadcast April 8 over GET.

The final concert for the season, by the Senior Chorus, was given May 5. There were also special numbers by the Girls' Chorus and Boys' Chorus. The Junior Chorus also appeared on the program. More than fifty members of our Junior and Senior Chorus sang at the Adams County Musical Festival in February.

## STAGE IN CLASS AIDS THESPIANS

When Biglerville High School English students get up to make a speech they do it from an actual stage right in their classroom, and when the students read a play they do it right on the stage, as if they were acting out the production.

Mrs. J. D. Clouser and the students in her English course claim the stage, right in the classroom, is an excellent idea. They hold that the stage helps give them an impression they are in a theater, rather than a classroom, when they study and actually act out plays. They also say the stage helps them greatly when it comes to public speaking. As one student puts it, "After you've gotten up on the stage in English class often enough, you no longer have a terror of getting up on any other stage and talking to any other audience."

The stage in the English classroom also helps develop a group of excellent actors for the various plays given during the year.

This year the Senior High School students presented "All Through the Night." The Junior High School

### SENIORS EARN \$2,566 PROFIT IN FFA WORK

For four seniors at York Springs High School, Mervin Masemer, Richard Griffie, Robert Harbold and Jerry Andrews, their four years of vocational agriculture work proved very profitable.

During the year's projects as Future Farmers of America members brought them a labor income of \$2,806 and a net profit of \$2,566. The youths found their projects brought in receipts amounting to \$9,704 while expenses were \$7,138.

Besides the projects, activities of the York Springs Future Farmers chapter during the current year have included training in parliamentary procedure, basketball games with other chapters in the county, attendance at the South Mountain Fair, where the members took part in the judging contests. Mervin Masemer placed first in poultry, Lester Griest second in the same event; Richard Griffie won third place in the safe tractor driving contest and James Cashman was 10th in the swine judging event.

**Sell Seeds**  
The chapter also conducted several paper drives, sold vegetable and field seeds, as fund raising activities. Sixteen members attended the annual winter FFA jamboree held at James Buchanan High School where five of the York

portrayed "Huckleberry Finn," and the "Peter Pan Club," the Biglerville High School dramatic society, held a one act play contest, all of which Mrs. Clouser described as "excellent."

The Peter Pan Club, officially known as "Thespian Troop 484" is made up of 12 members with the officers including Janet Ehlman, president; Elaine Weaver, vice president; and Janet Beitman, secretary-treasurer.

### Seniors Support Drama Activities

The dramatic activities of York Springs High School were supported by many seniors who showed much interest and talent, according to the director, Miss Virginia Smith. The seniors had an opportunity to participate in two class plays and the school plays which are sponsored by the Student Council.

Especially outstanding were the performances given by Larry Sealover, member of the class of 1955, in the two class plays, "Finders Creepers" and "Desperate Ambrose." Other seniors who gave commendable performances in both class plays are: Lucille Bubb, Richard Griffie, William Guise, Dean Hoffman, Mervin Masemer, Marilyn Shank, Jean Spertzel, William Taylor, Ronald Weigle and Ruth Wolfe.

Spring members placed in the athletic contests.

Shop work during the year included training in the repair and adjustment of farm machinery, tool fitting and sharpening, soldering, welding, and construction of metal and wood projects including a double hog shelter, a rabbit hutch, log holders, feed carts and hog feeders.

A member of the York Springs FFA, Richard Griffie, was named secretary of the Adams Franklin Area FFA Association.

**Had Outstanding Project**  
Janus Kuntz conducted the outstanding "fat hog" project during the year, fattening four hogs to market weight with a daily gain of two pounds on a self feeder with supplement, corn and minerals in separate compartments. Officers of the FFA include: Robert Harbold, president; David Miller, vice president; Mervin Masemer, secretary; Lester Griest, treasurer; Jerry Anderson, reporter; Merle Rumsey, sentinel, and James Cashman, chaplain.

## News Items For Upper End

### Upper Adams Young Farmers Unit Has Teachers, Board Enthusiastic, Extends FFA

Newest organization at Biglerville High School is the Upper Adams Young Farmers Association, a group that has both school officials and the agricultural teachers, Cecil Snyder and John White, unusually enthusiastic.

The unit has 48 members, eight more than recommended by the state for proper functioning, and the young men making up the unit have a hard and fast rule in their constitution adopted April 12 — miss three meetings without excuse and you're no longer a member of the organization.

But the interest of the members and of those who would like to be members is such that already school officials can visualize the possibility of a second Young Farmers organization being established in time.

**Starnes Is President**  
Headed by Myles Starnes, 12, as president, the group was described by White as "the most interested I have ever seen. They soak up information like a blotter and keep asking for more. It's keeping Mr. Snyder and me busy keeping ahead of them."

Organized to fill a need for further "on the farm" information for the young men who graduated from the Future Farmers of America organization of the school's agriculture department, the young farmers unit also helps keep the farm classes in the school up to date on current farm problems and solutions. The teachers serve both the high school students and the Young Farmers.

Under the Upper Adams system Snyder and White spend one half the day in school with the 60 agriculture students there and the other half out on the farms with the 48 Young Farmers.

**Select Own Program**  
To keep the program of the Young Farmers vital, a committee of that group sets up the schedule for the sessions, and the vo-ag teachers simply help out, if need be, to secure the people and information the Young Farmers want. In the Upper Adams unit the monthly meetings have usually been held in the form of two sessions, one for fruit growers and one for general farmers. To make

sure everyone is presented in the programs, President Starnes set up a program committee headed by Emory Raffensperger that is comprised of four general farmers and four fruit farmers.

To keep the tie with the FFA stronger, the constitution of the new group provides for the president of the school's FFA chapter to be a member, ex officio, of the executive committee of the Young Farmers, and it is expected that most of the FFA youths will eventually "graduate" into the Young Farmers organization as they begin farming on their own, and that the Young Farmers of today will probably in turn "graduate" into adult farmer classes for older folks.

**Starnes An Example**  
President Starnes himself is a prime example of the new group of farmers being produced by the schools. He won the Keystone Farmer degree while an FFA member at Biglerville high, then he became the first Adams Countyman to win the American Farmer degree of the national FFA. Later he was an International Farm Youth Exchange delegate to Mexico. Now engaged in operating his own farm, he heads the IFYE program which brought four Indian youths here this summer, and is active in nearly all farm groups.

Another example of the FFA influence in the Young Farmers is Norman Blocher, first president of the Biglerville FFA when it was organized in 1937. He is now a

### MORE THAN 600 BHS PUPILS ARE IN MUSIC UNITS

Practically everyone in the Upper Adams school system takes part in either the choral or band activities and many take part in both, Charles L. Yost, principal, said today.

Approximately 300 are in the various instrumental music programs which range from grades four to 12. More than 350 participate in the vocal music groups.

The instrumental program began in 1928 under Mr. Yost, but in 1948 an instrumental music instructor was employed to take over those duties, leaving Mr. Yost to carry on the principalship and vocal music activities.

Youngsters in the fourth grade are started on "tonettes" and thus receive almost three years of instruction in music before they join the Junior High School band, which numbers 105 members. The Senior High School band has 85 members.

**Preparatory Stage**  
The Junior High band "is used primarily as a preparatory stage for the Senior High band," Mr. Yost said, "in addition the Junior High band makes several public appearances each year, highlighted by its appearance in the annual spring musical."

"The Senior High band is a selective organization utilized in many functions of the school and community. Each year the Senior High instrumentalists are called upon for approximately 50 public appearances."

"A 15-piece dance band was organized recently to provide capable students with a broader education in music. It makes about 12 public appearances each year. The Senior High band participates in approximately 10 parades a year, plays about 15 concerts each summer in the Upper Community, and takes part in the South Mountain

director of the Young Farmers. But the Young Farmers are not all ex-FFA members. There are others in the group who never had FFA training.

And the program, while brand new at the school, is not something completely out of the school's experience. There have been adult farm classes of one type or another at Biglerville since 1940 — starting that year with the first adult agriculture class, and then from 1942 to 1945 taking the form of the Farm machinery classes of wartime and then the GI Agriculture training classes were held there from 1946 until September 1954.

Fair in addition to its school functions. Vocal music in grades 7 to 9 includes classes once a week plus participation in the Junior Chorus, and Ninth Grade chorus.

Each group has a membership of about 100 and takes part in assemblies, Christmas and Easter Festivals and the annual spring Musical.

In the senior high school the musical groups include the Mixed Chorus with 90 members, and the Senior Choir with 65 members. There are also two boys' octettes in the tenth grade and one each in grades 11 and 12, plus girls' trios, girls' quartets, boys' quartets and mixed quartets which perform before service clubs, PTA units and various churches of the area.

The three big music events of the year are the operetta, the Christmas program and the annual spring musical. In addition, the choir sings an average of ten sacred programs in the churches of the area.

### Student Council Is 32 Years Old

Biglerville High School's Student Council is marking its 32nd year of operation.

Organized in 1923, the student council has been active through the years in promoting student activities and correlating the various student functions of the school. L. V. Stock, supervising principal, notes that the group also provides "tremendous service" in "aiding in the settlement of problems dealing with the school, traffic and citizenship."

Members of the council must be either presidents of a class, club or home room, or must be captains of athletic teams.

The officers who served the council this year were J. Kay Sheats, president; Carolyn A. Wierman, vice president; Joyce R. Ebert, secretary, and John P. Day, treasurer.

## Operation Of Upper Adams Schools Requires Efforts Of Several Hundred Patrons

It takes a lot of people to operate a joint school system. At least that is the experience of the Upper Adams Joint School system.

In addition to the approximately 60 employees—ranging from administrators to teachers, to janitors, to truant officers and bus drivers, there are the 30 members of the point school board, the 30 members of the school commission, and between 500 and 600 patrons who are members of the three Parent-Teachers organizations of the jointure.

Actually every adult living within the confines of a joint school system—through the payment of taxes, participates financially, if in no other way.

In the Upper Adams system nearly all residents participate by patronizing the various games, plays, dinners, and choral and band activities. They also are kept informed through publications put out from time to time by the schools. Two reports of the commission have been printed and sent to the patrons so far. One, entitled, 'Know Your Schools,' went out in 1951 to give a complete overall picture of the school system. Another entitled, 'Here Are Answers To Some Questions You Have Asked,' was distributed about a year ago.

Another publication is in the process of being written by the commission at the present time.

**Hold 350 Meetings**

And anyone who has missed connection with the schools in one way or another has probably at least been in them for one of the meetings of non-school connected groups held in the Upper Adams schools. Upper Adams officials estimate that between 300 and 350 meetings of other than school groups, units ranging from Boy Scouts to farmers, organizations, are held in the schools each year.

School officials thoughtfully estimate that "It's pretty difficult to live in the area and not get into the schools at least once or twice a year."

The Upper Adams School Commission is a study group unique in the school systems of the county. Made up of 30 members, five from each of the districts in the jointure, it is comprised of leading men and women appointed by the school boards of the various districts. The commission's duty is to keep up a continuous evaluation and study of the schools and to make reports from time to time on its findings to the school board, and the public.

**Board Praises Commission**

That helps the school board carry on its work. Immersed in the thousand and one details of daily operations of a system that costs approximately \$400,000 a year to operate, the board reports it finds its time

pretty well occupied in the job of just keeping things operating. The commission, on the other hand, can go into an extensive study of curriculum revision, on the need for new schools, on population trends, and the legal aspects of education. Thus a great deal of the preliminary study can be cleared away by the commission before any matter goes to the school board for final approval or disapproval. The commission, because it has time to work directly with the patrons of the district, also helps bring the ideas of the general public more accurately into the picture when problems involving change are to be discussed. The school board claims it finds the commission the best aid it has in school operation.

The preliminary discussion and planning that went into the three Upper Adams elementary schools which now provide the education for the first through sixth graders was to a large extent entirely carried on by the commission—thus when the commission completed its study, the school board had all the facts at hand on which to base its decision, even down to how the projects could be paid for.

**Study Curriculum**  
Curriculum revision occupied the commission for a great length of time and resulted in a number of changes in the school teaching. Currently the commission is engaged in the problem of high school expansion.

There are 240 more students in the elementary grades than in the high school. At the present time every classroom in the high school at Biglerville is in constant use. That means that within a few years Biglerville must add to its high school.

The commission holds its meetings the first Thursday of the month, thus making it handy to the school board meetings held the first Monday of each month—matters can be taken to the board while still fresh in the mind.

The commission also considers such matters as the budget. It spent two months on the budget for 1955-56 before turning over its recommendations to the school board.

**Teachers Evaluate Methods**  
For the next three months the commission will be studying the evaluating criteria for high schools prepared by the Secondary School Commission of the Middle Atlantic Association of Colleges and Secondary Schools. That is in anticipation of next year when the Upper Adams High School is scheduled for the examination given each ten years by the accrediting group. The committee conducting the evaluation of

the school will be there March 13, 14, 15, 1956.

Familiarization with the evaluating criteria on the part of the commission will help its study how effectively the teachers are doing their own evaluation program. The teachers have set up a program in which committees from the various departments evaluate the work of the other departments and then meet for joint discussion. That system, Supervising Principal L. V. Stock explains, not only provides "in service" training for the teachers and helps "catch any weak spots," but also serves to continuously better the school program in addition to preparing for the evaluation next spring.

A similar evaluation program is carried on by the faculty members in the elementary schools. While criteria for evaluation for elementary schools has not yet been standardized as yet, the Upper Adams group is using a criteria put out by the School of Education of Boston University for its interfaculty evaluation program.

**PTA Activities**  
While the commission, board and teachers are engaged in their portion of the school program the Parent-Teachers Associations are equally busy with their share of the varied school activities. Through dinners and other activities, the Parent-Teachers groups are raising money for such purposes as curtains for the stages and through meetings bring parent, child and teacher closer together and provide "invaluable help to the school system," school officials report.

Rev. Clarence Lawver is president of the Bendersville unit of the PTA; John Frederick is president of the Arendtsville unit and George Heikes is president of the Biglerville unit.

Members of the Upper Adams Joint School Board include: L. W. Garretson, Charles Bushey, Arnold Orner, M. E. Knouse and Dr. R. M. Hale, Arendtsville; J. F. Kanagy, Henry Lower, Luther Lady, Roy Heckenluber and Elmer Hoke, Butler Twp.; Luther Horick, Paul Crum, Carl Taylor, Leslie Keller and George Schriver, Bendersville; R. M. Martin, Kenneth Alwine, Dean Carey, L. W. Kleinfelter and Oscar Rice Jr., Biglerville; John Pitzer, Robert Lott, Pearl Wenk, Glenn Peters and Paul Pitzer, Menallen Twp.; Corman Day, J. K. Mansberger, George Weaver, Hiram Rex and Guy Deardorff, Tyrone Twp. R. M. Martin is president of the joint board.

**Name Commission Members**  
Members of the school commission include Paul Hartman, Mrs. John Frederick, Dr. W. North Sterrett and Harvey Dickert, of Arendtsville;

## FFA MEMBERS GROSS \$8,000 ON GROUP PROJECTS

Biglerville High School's Future Farmers of America are grossing about \$8,000 per year in their varied activities as a group and the profit goes not only for such things as trips, but to provide the youths with additional education in successful farming.

The students have 150 sour cherry trees, in an orchard on school board land back of the school; they are putting out six acres of corn, for the second year, on land lent them by Ralph Shetter plus some at Arendtsville and some at Biglerville on school board property; they have three brood sows and a registered purebred Hampshire boar in a pig project; they sell about \$2,500 worth of seeds each year and found such a terrific demand for Spanish onions when they adopted their sale this year that they expect to double the size of that project next year.

All of that is in addition to the regular class work and home projects, although all of the work ties in with their school and home duties as well.

**Pigs From Profits**

The pig project grew out of profits from the other projects, and currently some of the profits are going into the lumber and materials for construction of pig houses and feeders. Thus the youngsters get the training of farm operation, using one profit to set the stage for more profit later; are learning how to construct pig shelters and other equipment properly and with an expectation that the use of the articles will produce a profit. The pig project is also helping upgrade the swine in the community. A

Mrs. George Schriver, Dale Crum, Mrs. Roy Starner and Clyde Orner, Bendersville; Willis Weigle, Mrs. B. G. Walter, Mrs. Anne McGlynn, Russell Hackman and Donald Bosserman, of Biglerville; Mrs. Marshall Longenecker, LeRoy Zeigler, Mrs. Clayton Jester, Mrs. Henry Wagner and Arthur Musselman, Butler Twp.; Charles Gulden, Mrs. Virginia Steiner, Richard Galusha, Ernest Rebert and Luther Smith, Menallen Twp.; Mrs. Garnet Coble, Glenn Kime, Mrs. Pauline Kemper and Rev. pig ring is in operation in which a group of students receive a gilt from the first brood, then provide a pig from next year's litter for the "next guy" and so on. The boar is also being rented to farmers to help upgrade their swine, at a profit to the youngsters. In addition a large part of the swine produced in the FFA boys' project is being sold as breeder stock to former members and other farmers in the area.

**Hold Game Supper**

In addition to their regular school and home farm projects the FFA members also take part in an annual FFA-PHA parents' night dinner session and then at the appropriate season the FFA-PHA hold a game supper—the boys go out and shoot the rabbits and squirrels and the members of the Future Homemakers Department prepare the meal. White and Snyder aver that what happens is good eating and a great deal of fun, although a little chicken and turkey has entered the meal. Some youths prefer fowl to game.

Then there are such activities as the floats the FFA youths annually enter in the Christmas parade at Biglerville, participation in the area FFA programs and events, and an annual trip.

Once the group regularly made an extended trip to Florida, and the students are again talking about Florida for next year, but Advisor John White is not too certain that the plans will materialize.

**Take Shorter Trips**

For the last several years the trips have been much shorter, generally to Beltsville to see the U. S. Department of Agriculture experimental farms there.

White explains that the boys generally have the money for extended trips, but they don't have the time. "They're buying cars, or equipment or something" and they've got jobs to make the money they need and they've got just too many commitments to take much time off for an extended trip."

Officers of the Biglerville FFA this year include Kenneth Pitzer, president; Kenneth Miller, vice president; Donald Himes, secretary; Gerald Lawver, treasurer; Eugene Shaffer, reporter; John Frey, sentinel, and Wallace Rice, chaplain.

## MARTIN HOLDS KEY TO STATE'S U.S. JUDGESHIP

WASHINGTON (AP)—Just when Pennsylvania's federal judgeship vacancies will be filled remains a subject of speculation.

On Friday President Eisenhower sent four long-awaited nominations to the Senate. His action brought forth only "no comment," however, from the state's two GOP senators, Edward Martin and James Duff.

Today the senators weren't saying any more—for publication at least—than they said on Friday. What they think is important since, by tradition, a senator by himself can block any home-state nomination merely by objecting.

The four names submitted by Eisenhower—C. William Kraft Jr. and Francis L. Van Dusen to fill two seats in Pennsylvania's Eastern District, and John W. McIlvaine and Herbert P. Sorg to fill two in the west—were not new to the senators. They were, with the exception of Van Dusen, the persons the Justice Department had decided upon earlier from lists submitted by the two senators over the last two years.

McIlvaine is a Martin choice. Sorg is Duff's and both senators support Kraft. Neither had urged the selection of Van Dusen, however.

But although the senators aren't talking, there is considerable discussion about the situation elsewhere on Capitol Hill. Boiled down, it goes like this:

Martin is the key. He feels he has been unjustifiably humiliated. Although he has no personal dis-

## MISSING BOYS, CRAZY ABOUT HORSES, FOUND

WILLIAMSPORT, Pa. (AP)—Two teen-age boys, crazy about horses and missing from the McDonough Military School at McDonough, Md., since May 13, were located Monday night at Two Buttes, Colo.

Dr. and Mrs. Reynold M. Grieco, Williamsport, said their son, Anthony David, 15, had telephoned them from the Colorado town of 150 persons about 300 miles southeast of Denver.

Anthony told his parents that he and Richard A. Webster, 16, Amityville, Island, N. Y., were working on separate ranches in the area and that they hitchhiked most of the way westward.

Dr. Grieco, a prominent Lycoming County physician, said the boy told him:

"I am sorry that I did this and I am homesick. I want to come home and I now regret what I did."

The physician said he told the lad that "if you were able to get out there, then it is your problem to earn enough bus fare to get home."

The doctor quoted his son as saying he will return to Williamsport as soon as he gets enough like for any of the nominees, he is miffed that Atty. Gen. Brownell turned down his recommendation of Alexander Cooper of Pittsburgh for one of the western seats—on grounds of age—and then insisted Van Dusen be one of the two eastern selections.

Van Dusen, backed by a number of Philadelphia Republicans and endorsed by various bar associations, was nominated last year but, due to the opposition of Martin and Duff, was never confirmed.

Duff, it is said, is now willing to go along on all the nominees, including Van Dusen, but feels Martin has not been dealt with fairly.

Although Martin and Duff had their differences some years ago, they have been friends again now for some time.

## School Choir Will Sing In Lemoyne

As part of its year-long celebration of the 60th Anniversary, Trinity Evangelical Lutheran Church of Lemoyne, will present in concert the St. Olaf Choir in the State Educational Forum, Harrisburg, Wednesday, June 15.

Under the direction of Dr. Olaf C. Christiansen, the choral group of 60 students from St. Olaf College, Northfield, Minn., will present their concert in Lemoyne prior to departing for Europe for the summer where they will sing in Denmark, Norway, Sweden and Germany.

More than three-quarters of a century ago, the early Norwegian settlers to the Midwest, felt the need for building churches and schools. St. Olaf College was then established in Southern Minnesota. Today, the student body numbers about 1,600.

money for transportation.

Dr. Grieco said he and his wife were relieved that the missing boys are safe but felt Anthony should earn his own transportation money eastward.

The pair left the Maryland military school about 8 p. m. May 13, apparently for a weekend in Williamsport. However, when they didn't return to class May 15, school authorities notified their parents.

Pennsylvania and Maryland state police and the Maryland Missing Persons Bureau were notified of their disappearance but efforts to find the lads were fruitless.

Anthony said he had \$33 with him when they left McDonough but that he had only \$7 left.

Dr. Grieco said the boys were crazy about horses and when they failed to show up after a reasonable time he thought they might have headed westward.

## STATE BANKING OFFICIAL ASKS RECRUIT PLAN

ATLANTIC CITY, N. J. (AP)—The Pennsylvania secretary of banking has proposed that the state's bankers team with his department in a campaign to recruit young men and women for careers in banking.

Robert L. Myers Jr. said there is a "current lack of personnel" qualified to fill jobs both in banks and in the state's banking department.

In a speech prepared for the annual convention of the Pennsylvania Bankers Assn., Myers said: "Since the Department of Banking and many of the institutions under its supervision have this common problem of personnel, can we not attack it jointly? I believe we can and I propose a plan for our cooperative effort."

"I propose a recruiting and training program that will not only supply adequate qualified personnel for our examining force but which will make available... qualified personnel for executive and managerial positions in the financing institutions under our supervision."

In State Schools

Myers said the main source of recruits for the program should be the "graduates of the schools, colleges and universities of Pennsylv-

vania having well administered courses in accounting, finance and banking." The recruits should receive on-the-job training with co-operating banks, he added.

The banking secretary said Gov. George M. Leader had approved the proposal in principle. Many bankers also have been enthusiastic.

Myers urged the bankers to continue working for better personnel policies.

"The lack of qualified young men and women for executive positions is a symptom of a recognized and basic weakness in bank personnel management," he said. "The roots of the disease" are:

1. Low wage scale.
2. Lack of adequate pension and retirement planning.
3. Lack of opportunity for advancement.

Earlier, Richard H. Starr, executive vice president of the First National Bank, Sharon, Pa., was elected president of the association's trust division. He succeeds George M. Fehr of Pittsburgh.

Others named divisional officers included H. Townsend Bongardt, Philadelphia, vice chairman, and Clinton L. Keister, Harrisburg, treasurer.

WASHINGTON (AP)—State Department officials said Tuesday German Chancellor Konrad Adenauer will pay a one-day visit to Washington next month.

They said Adenauer will be in the United States to receive an honorary doctorate from Harvard University June 16.

## JUDGE LENIENT IN PHONE CASE

POUGHKEEPSIE, N. Y. (AP)—Following a leniency plea from the district attorney, a judge Tuesday gave a suspended sentence to Mrs. Mary L. Kayes for her refusal to yield a party telephone line for a fire report.

She could have received a maximum sentence of a year in jail and a \$500 fine under a new law governing such circumstances.

Afterward, the 43-year-old mother of four jubilantly told reporters "I hold no grudges against

anyone... I hope that this case has served its purpose of bringing everyone's attention to the new law."

County Judge John R. Schwartz said he was motivated by various considerations, including the fact she finally did alert the operator after first refusing to give up the party line for a grass fire report by Fire Warden Donald Townsend.

Also, the judge said, he believed that a barn which caught fire would have been destroyed anyhow.

And, he told Mrs. Kayes: "I believe you've learned your lesson."

## TEACHERS' PAY

(Continued from Page 1)  
connection with a bill which would cut state appropriations by \$16,000,000 in the next biennium and more in years to follow.

An attempt by Assemblyman Worley to get opinions from the audience on the governor's tax program brought two expressions — one who thought steps should be taken to make a graduated income tax legal in the state and another who favored the sales tax over proposed new levies.

**Health Bill Discussed**  
No attempt was made to reach conclusions on questions discussed and the group did not go on record as for or against any of the bills but Chairman Riegle said "informative" and he hoped it would stimulate reading and thinking in the next few weeks.

A score or more of the 280 bills related to public education that have been introduced at Harrisburg were mentioned, most of them only briefly.

There was some discussion of Senate Bill 324 which would shift school health program from the Department of Public Instruction to the Department of Health and one educator pointed to progress made under the present system and said he hoped disruption of that plan would not work to the disadvantage of the pupils.

**See Higher Local Burden**  
The teachers joined in the discussion of advantages of their retirement as against or combined with social security in connection with House Bill 503, known as the Automatic Option bill, and Bill 564 which would offer survivor benefits after five years of service. Teachers generally seemed in favor of both measures but there was no information on what extra cost would be involved.

One schoolman said, if House Bill 1179 cutting the formula for calculating the reimbursement fraction for state appropriation is passed, from two to eight additional mills of local taxation would have to be levied.

Dr. Keefe estimated the first year of operation would cost Gettysburg district more than \$8,600 in state funds and Cumberland Twp. over \$1,800 in addition to losses on rental reimbursements. John O'Brien, chairman of the local Legislative committee of the PSEA, that arranged for the meeting, called the meeting to order and presented Chairman Riegle. Discussion last more than an hour and a half.

lost, just as have been other great powers before us."

**Honor Deceased**  
District Deputy Grand Master John D. Settle, opened the program with a tribute to the deceased members of the lodge. Following a vocal solo by Mrs. James Schwenk, accompanied by Mrs. Richard B. Shade, the uniformed members of the Canton, with drawn swords, lined the room under command of Captain Merle Rudolph. Wilbur Baker and John B. Zimmerman brought forward the charter of the lodge to a pedestal before Master Settle. Paul Snyder and John Hewitt draped the charter as the names of the members who died during the past year, Allen Guise, J. Monroe Wiser and D. Sandoe Kitzmiller, were read.

David Tawney placed American flags and Roy Foulk placed greens on the charter in memory of the three. Then a green wreath in memory of all deceased members of the lodge was placed by James L. Mumper.

Following a prayer by Thomas Treher, the Canon withdrew and Attorney MacPhail was introduced as the speaker. The program concluded with group recitation of the Lord's Prayer.

## URGES USE OF STRAWBERRIES DURING SEASON

Strawberry season is rolling in again. While this fruit is plentiful, serve it often, Miss Florence Finger, extension home economist for Adams County, suggests.

Best strawberries are bright red, firm, plump. They should be clean, dry, and free of sand and leaves. Strawberries without caps may be too ripe and are likely to spoil easily because they're soft.

Because strawberries do spoil easily, buy them the day they'll be used. If they must be kept over night, go through the box and pick out any that are soft or show mold. Otherwise, more berries will spoil from being in contact with those already that way.

**High Food Value**  
Wash strawberries just before using. They stay firm and hold their shape better when washed after hulling.

Besides providing plenty of good taste, strawberries provide lots of good food value. Like oranges and grapefruit, they are rich in vitamin C. This is only true if the berries aren't exposed to warm air for a long time. Crush strawberries just before serving to lessen the loss of vitamin C. Strawberries are low in calories—about 27 calories to a half cup.

Serve these bright red berries at any meal. Try shortcake, strawberries with ice cream, strawberry pie, and fruit salads. Strawberries combine well in salads or dessert with pineapple, grapefruit, apples, oranges, melons, and bananas.

To enjoy this luscious flavor in future months, make jam or jelly. Frozen berries are always popular. Just roll the clean, dry berries in sugar. Pack in plastic containers or glass jars. Be sure to leave one-inch headspace. Seal and freeze at once. They'll taste good next winter.

Although the United States uses more electric power than any other country, its per capita use is less than that of either Norway or Canada.

## TO FILE REPORT ON LAURELTON PROBE SHORTLY

HARRISBURG (AP) — Chairman Albert R. Pechan (R-Armstrong) of the Laurelton investigating committee expects the group's final report to be submitted to the Legislature "within the next few days."

Pechan said on Monday that it will be a single report signed by all eight members of the House-Senate committee composed of four Republicans and four Democrats. There had been speculation two weeks ago that Democrats and Republicans would submit separate findings.

"We met on Monday and the report has been agreed to by all except Rep. David M. Boies (D-Allegheny), who was unable to attend," Pechan said. "It will be tend," Pechan said.

Pechan disclosed that the committee "agreed on every point of the report on conditions at the village" but he refused to disclose its contents.

**Would End Requirement**  
Meanwhile, the administration moved to do away with requirement that mental institutions for females must be a woman.

A bill offered the House Monday under the signature of Rep. Henry Ciangrani (D-Phila.) would erase the limitation from the state mental health act.

Dr. Effie C. Ireland resigned as superintendent of the Laurelton State Village, a Union County institution for mentally defective females, in protest against charges leveled by Harry Shapiro, state secretary of welfare. Shapiro claimed inhuman practices were condoned at the institution and the Legislature appointed the committee in March to investigate.

**Held Hearings**  
The committee held seven extended public hearings on the subject and two weeks ago met to draw up provisions of its report. Pechan has said previously that he personally believes there was

## Truck Driver Is Killed In Crash

WOODBURY, N. J. (AP) — The driver of a light pickup truck was killed and two companions injured in an accident Tuesday on the New Jersey Turnpike in Woolwich Twp. near Swedesboro.

Frank Moore Jr., 33, of Englewood, died in Underwood Hospital at 7:40 a.m., an hour after the crash. His companions, identified

little evidence to support Shapiro's charges but Democratic committee members have disagreed.

by state police as Clemmon Peterson, 21, of R. 3, Lake City, S. C., and Lancelot Washington, 29, Englewood, were released after treatment at the hospital for bruises and abrasions.

State police said the three Negro men were travelling north on the turnpike when Moore apparently fell asleep, the machine drifted off the pavement and slammed into a guard rail.

# Pennsylvania Ranks Third In U.S. In Artificial Breeding In Dairy Herds, Zettle States

By FRANK S. ZETTEL  
Adams County Farm Agent

During 1954, Pennsylvania ranked third in the United States in the number of cows bred artificially. Only two states, Wisconsin and Minnesota, ranked ahead of Pennsylvania and both of these states have considerably greater cow populations.

Farmers in Pennsylvania are breeding a greater percentage of their cows artificially than farmers in any other "dairy" state. The 408,922 cows bred artificially last year represent an increase of 30,000 cows over 1953, and comprise about 43 per cent of all cows and heifers of breeding age in the state.

The continued rapid growth of the artificial breeding program reflects farmer confidence in the program. By breeding up their herds through use of superior sires they can operate on a more efficient basis. This practice, combined with a sound feeding and management program, is the key to success in dairying under present conditions.

**Spray Those Evergreen Red Mites!**

Some evergreen trees have a pest known as the red mite. Spruce, arbutus, hemlock, and juniper often are heavily infested with red mites. The first evidence of red mites on evergreens is the appearance of small, gray, or yellowish spots on the needles. Later the foliage becomes bronze in color, and heavily infested needles may drop from the tree. The en-

tire tree is likely to lose its vigor, and at best have an unhealthy look about it.

The mites are very, very small, and pretty hard to detect with the naked eye. They're very in color from a reddish-brown to pale green. You'll find the mites will spin fine, silken webs over the needles, too. And all stages of the pest you'll find during the early summer.

Right now's the time to think about red mite control on your evergreens. To prevent injury from this pest, you'll want to begin treatment in late May. There are two or three combinations that'll do the trick for you... in fact, they're easier to use than they are to pronounce. One is Aramite. The second is Ovotran, and the third is Malathion. Any one of them... ARAMITE, OVOTRAN, OR MALATHION... is about as good as the other. Be sure to follow the directions on the container.

Incidentally, you can often check mites by syringing the tree from top to bottom with water from your garden hose. Do this water spraying once a week for best results.

**Fight Poultry Cannibalism**

Cannibalism among chickens often has accounted for heavy mortality. A number of practices have been recommended as preventive or control measures... such as various mechanical devices... extra salt in the ration... addition of oats... and the "tipping" or paring off the end of the bird's

# CONTESTS TWO CODICILS IN \$150,000 WILL

A Norfolk, Va., man has entered a petition and caveat in Orphans Court, Frederick, to two purported codicils to the will of his cousin, the late William G. Gwynn, of Emmitsburg, who court attaches said left an estate of at least \$150,000.

The caveator is C. Littleton Upshur, who said that the only relatives and heirs-at-law of Gwynn were himself and these other cousins: Henry Upshur, of Norfolk; Upton Bruce Gwynn, Sarah Nash Ruffin Gwynn, Henry Gwynn, Robert E. Lee Gwynn and Ann Ruffin Gwynn, all of Horqueta, Para-

beak with a knife.

Most of these have generally been quite effective. The mechanical devices, in particular, have given good results but they are not too durable, and they do take a lot of time in preparation.

With the electrical de-beaker, about a quarter inch of the upper beak is removed with an electrical heated knife. This cauterizes, as well as cuts, and does a bang-up job of de-beaking. Now, it might seem this is a rather severe treatment, and that it might affect feed consumption and production. However, thousands of cases have shown that's not so. De-beaking really is a mighty effective way of controlling cannibalism.

After you finish the job of de-beaking, it's important to feed the grain to birds in troughs or hoppers. It's hard for the de-beaked birds to pick up their grain from the floor the way it's normally scattered around.

# REORGANIZATION MOVE APPROVED

HARRISBURG (AP)—The first of Gov. Leader's government reorganization proposals today carried the unanimous approval of the Republican controlled Senate.

The resolution, passed on Monday, would take the state Planning Board from the Commerce Department and set it up as a separate agency.

"We are going along on this measure to give the governor a chance," said Sen. Mahany, Republican floor leader. "Then we'll wait and see what is accomplished."

A similar resolution submitted

The Gwynn will, it is understood, left the estate to Margaret Dickerson for life and then to the cousins named by Upshur after a number of personal bequests which included a house in Baltimore to Margaret Dickerson.

Upshur recently filed a bill of complaint in Equity Court against Margaret Dickerson seeking an injunction to prevent transfer of certain property which Gwynn had allegedly owned and which, Upshur claimed, had been through undue influence placed in the

**You Lose Money**

"When you set up a separate bureau such as this, all on its own," Mahany told the senate, "you will find that instead of saving money you lose money."

Sen. Fleming (R-Allegheny) declared that "If Gov. Leader were sincere in his promise to cut government costs and affect economies, he can right now cut 106 million dollars from his budget in salaries."

Sen. Dent, Democratic floor

leader, described Fleming's idea as "foolish."

"During the last 16 years, the Republicans, not the Democrats, had these people on the payroll,"

he said. "Did you need them or did you not?"

Frog Level, S. C., changed its name in 1873 to Prosperity.

*"I'm thinking of using a safe deposit box this year"*

"A safe deposit box provides the kind of protection I want: protection against loss, theft, and damage. And just as important, I'll always know where everything is. There'll be no more hunting around blindly while I try to remember where to look. No wonder so many people use safe deposit boxes for their jewelry, papers, and heirlooms! Especially since the cost is only a few pennies a week."
